

PETER BUSBY DIRECTOR

C.M., AIA, FRAIC, MAIBC, MAAA, MOAA, BCID, LEED AP, DSc (Hon.)

"At Windmill, we are as committed to design excellence as we are to attaining the highest level of environmental performance in all our projects. The result is high quality architecture and planning that will perform well for decades."

As Managing Director at Perkins + Will, Peter is involved in the design, consultation and sustainable direction of each project the firm engages. Peter directs more than 100 employees working at 23 offices worldwide.

A founding member of the Canada Green Building Council, Peter is recognized internationally as a leader in green building design. Perkins+Will is considered one of North America's leading green practices with the largest portfolio of built green projects in Canada. With more than 25 years of successful projects completed under Peter's guidance and across market sectors, the firm has received 100 design honours including 6 Governor General Awards and 11 Lieutenant Governor Awards.

Other awards recognize innovative engineering systems integration, sustainable design strategies, project management, construction, heritage integration, planning, and industrial design, attesting to the comprehensive service the firm provides. Peter has devoted much of his time to his profession, to the community, and to the advancement of sustainable education and practices. In recognition of his professional and community contributions, Peter was admitted to the College of Fellows of the Royal Architectural Institute of Canada in 1997.

In 2005, Peter was invested as a member of the Governor General's Order of Canada, the highest civilian award in Canada that recognizes a lifetime of outstanding achievement, dedication to the community and service to the nation. In 2008 Peter was conferred an Honorary Doctorate in Science by Ryerson University.
